Blairmore Red Cross

A Special Notice to Red Cross Workers

It is disappointing to note
that at a time when the needs
of the Red Cross stand out
above all other appeals, there
is a falling off in attendance at
our weekly meetings. A very
special appeal for Red Cross
supplies comes through every
issue of our daily papers. The
summer months must see no
slackness in the work. Certain
supplies which are needed in
unlimited quantities must be
forthcoming. Can you not ar-
range your time so that each
Tuesday afternoon is free to
devote to this work? The mud
destruction of war will not
wait. Men are wounded and
calling for aid. That call may
not touch you personally now,
but the end is not in sight. We
have a large number of soldiers
in our midst today. If you are
not interested in these on the
battlefield, you at least know
these personally. Come out
and take a part in the work
which is eventually to aid some
husband, brother, or father.

Blairmore Branch Can- adian Patriotic Fund

The following is a statement of the
receipts and disbursements of the above

Total.....	\$535.15
J. B. HARMER, Secretary-Treasurer.	

Promoter of Head Syndicate Passes Away

Leslie C. Hill, who died at Oxyoos,
B.C., of acute Bright's disease, on April
21, was for a number of years engaged in
directing mining operations in various
parts of British Columbia and Alberta.
When in 1907 or 1908 he went from Van-
couver to Greenwood to develop the
Jewel gold mine, that property was con-
trolled by Vancouver men, who are also
interested in the Vancouver group near
Silverton, Silverton, and this property too.
Mr. Hill developed. Later, he directed
the development of the Bend D'Or mine,
now included in the Coronation group,
situated on Cadwallader creek, Lillooet
mining division. As manager and mining
engineer for the Hastings, (B.C.),
Exploration Syndicate, of London, Eng-
land, he effected a transformation from
mining enterprise somewhat heavily bur-
dened with debt to a productive, divid-
end paying undertaking. That com-
pany's gold mine was at Erie, Nelson
mining division. Before retiring from
mining engineering to live on his ranch
at Oxyoos, to which place he removed
from Nelson several years ago, he did a
lot of development on some coal prop-
erties in Southwest Alberta, owned by the
Head Syndicate of London. During
many years of professional activity he
also did much civil engineering—he was
an Assoc. Member of the Institute of
Civil Engineers. For some years, too,
he was a member of the Canadian Min-
ing Institute. He was a good representa-
tive of the typical Old Country profes-
sional man, and it was significant that
his former and superintendents re-
mained in his employ for many years.

bers of the United Methodist are especially
invited to this service.
Strangers and other visitors are cordi-
ally invited to these services.

Rocky Mountain Leader

Canadian Patriotic Fund

Below we give a report received from
the head office of the South Alberta
Branch of the Canadian Patriotic Fund.
It will be noticed that the Rocky Moun-
tain constituency ranks fifth in contrib-
uting to this fund, and has the distinc-
tion of being the first constituency in the
whole Dominion to raise the amount of
its allotment. Some short time ago
the sum of \$3500 was required from this
constituency. Inside of three months
the district of Camrose and Banff raised
close to this amount, while contributions
from this riding for the month of March
almost reached the amount required to be
raised in the twelve months. This is
indeed a very creditable showing. While
the House was in session last fall, "Bo" Campbell, the Rocky Mountain member,
was jeered at when he stated that he was
certain that Rocky Mountain would
put up a better showing for its popula-
tion than any other constituency in the
Province. It was stated by other mem-
bers in the house that it was impossible
for Rocky Mountain to make a good
showing on account of its large percentage
of foreigners who it was thought would
not contribute. It has been proven that
the foreigners of the mining districts are
good contributors to patriotic funds
than even the English-speaking farmers
of the province. The mining districts
have been literally drained of English-
speaking men, but their places are filled
by men of foreign nationalities who pay
their portion towards the country's fight

We respectfully ask the readers
of this paper to patronize the mer-
chants who advertise. They are
the men who make the local paper
possible in this district. It is
largely owing to their public spir-
ited interest in the town that en-
ables a home paper to exist. Just
give this a moment's serious
thought, gentle reader; make a
note of the firms that advertise,
and know that by backing them up
with your patronage you are back-
ing up the very best class of citi-
zens we could have.

"Let me see, now," said the min-
ister at the christening, dipping
his pen into the ink to record the
event. "Isn't this the 27th?"
"I should say not," retorted the
indignant mother; "It is only the
26th!"

Two soldiers were conversing.
One asked the other what made
him enlist.
"Why, I had no wife and chil-
dren—no one but myself to think
of; and, besides, I like war. But
how come you to join the army?"
"Well, you see, I had a wife, and
I joined the army because I like
peace."

That Awful Ache of Lumbago Rubbed Away for Ache

Murrah! No More Suffering—
Every Ache Goes Quick

RUB ON NERVILINE

Lumbago is a peculiar sort of rheumatic trouble that affects the muscles along the loins and back. At times its agony is intense. Severe spasms of pain shoot in all directions, and become more severe on stooping.

In treating lumbago or stiffness in the back, it is necessary to keep warmly covered to prevent a sudden chill. Attend to this, and then apply Nerviline freely.

Almost instantly you feel its warm soothing action. Right through the cords and muscles the healing power of Nerviline penetrates.

Quick as a wink you feel the stiffness lessening. You realize that a

NERVILINE

powerful pain-reducing remedy is curing the pain, is easing your distress, is making you well again.

Nerviline quickly cures backache or lumbago, because it has the strength, the power and penetrating force possessed by no other known remedy. Its amazing curative action is due to certain extracts and juices of rare herbs and roots, combined by a secret process, and forming a truly magical medical marvel.

Any sort of aches in the muscles and joints Nerviline will cure quickly.

It eats the pain right up—relieves stiffness, restores the muscles to their wonted elasticity and vigor.

It's the quickest thing imaginable for rheumatism, lumbago, sciatica, or strains, nothing can excel good old Nerviline.

Get the large 50 cent family size bottle, it's the most economical; trial size, 25 cents. All dealers or the Catarthorone Co., Kingston, Canada.

At Grenvich Keep there is a moat, and under the moat is a mine. The regiment stationed there must clean out the most every fortnight. Every regiment which has been discovered in the most a safe, with eager faces the soldiers have gathered round as the mine has been hauled out of the moat, and with great expectancy they watched the efforts of the forces to open. One day, as the words "Drop it in again, old fellow," meet the ears. And it is religiously dropped in, and for the next regiment to fish out.

A farmer who took much pride in the looks of his fattening pigs once purchased a pair from a neighbor. Upon delivery, they seemed to him rather small. The old man eyed them dubiously and then remarked dryly, "I guess I had better keep the cat shut up for a few days."

Cure Borders on The Miraculous

A. SAWYER TELLS OF WONDERFUL WORK OF DODD'S KIDNEY PILLS

He and His Wife, After Years of Doctoring, Found Quick Relief and Permanent Cure in Dodd's Kidney Pills.

Capitol Junction, Ont.—(Special).—Bordering on the miraculous is the cure of Mr. A. Sawyer, of this place. For ten years he was an invalid. Five doctors failed to help him. When he was a complete wreck, and unable to walk across his room, he decided to try Dodd's Kidney Pills. Since then, he made him like a new man.

"I suffered for ten years," Mr. Sawyer said in speaking of his cure. "The doctors of whom I tried, five in all, together, couldn't give me any permanent relief. Some said I had rheumatism, others called it lumbago, but I got steadily worse."

"I must say I was a complete wreck when I started to take Dodd's Kidney Pills. They made a new man of me. My wife got the same good results from them. It was after trying several doctors and a specialist from South St. Mary's who advised her to stay in bed a month, that she decided to try Dodd's Kidney Pills. She took a dozen boxes in all with splendid results. We both praise Dodd's Kidney Pills. One can speak too highly of them."

Dodd's Kidney Pills have a record of over a quarter of a century in Canada, during which time they have earned unending praise in all parts of the Dominion. Ask your neighbors about them.

In the picture a cook was using a gas stove. Two housemaids in the audience were watching the scene with great interest.

"Shure, Mary," said one, "do you know, a gas range is a folsie stove. We have one where we work. I lit it two weeks ago, and it ain't out yet!"

Minard's Liniment Co., Limited.

Gentlemen—I had my leg badly hurt, the pain was very severe and a large swelling came above the knee. I expected it would by some means—I rubbed it with MINARD'S LINIMENT, which stopped the pain and reduced the swelling very quickly. I cannot speak too highly of MINARD'S LINIMENT.

AMOS T. SMITH.

Port Hood Island.

Customer—Are these shoes too far gone to fix up?

Shoemaker—No, I don't believe so. A new pair of uppers, with heels and soles, and you're all right. I'll fix the laces are in fine condition.

Wretched From Asthma—Strength of body and vigor of mind are inevitably impaired by the visitations of asthma. Who can live under the cloud of recurring attacks and keep body and mind at their full efficiency? Dr. J. D. Kellogg's Asthma Remedy dispels the cloud by removing the cause. It does relieve. It does restore the sufferer to normal bodily trim and mental happiness.

"Say, Roy, I advertised for a strong boy. 'Well, ain't I a strong boy?' 'You don't show it. Why, you make a four-round contest out of kicking a slingshot.'"

Tame a Silk Worm And Reap Results

Possibilities of a Great Trade in the
Last Foe Colony

In view of the progress of General Smuts' campaign in German East Africa, the last of the German colonies, attention is being given by British manufacturers and merchants to the economic possibilities of this region. In particular, the president of the silk association has just directed attention to the wild silk of the Annapolis worm, and has suggested that when German East Africa changes hands this raw silk will afford a good opportunity for British silk manufacturers.

The Annapolis worm occurs, as a matter of fact, in many parts of East, West and South Africa, and samples of the silk from Uganda were examined some years ago at the Imperial Institute, which introduced the product to the notice of leading silk manufacturers in this country.

It is this that has attracted the price British manufacturers could offer would pay the cost of collection of the silkworms and the cost of the Imperial Institute accordingly suggested that the government entomologist in London should be invited to investigate the possibilities of "domesticating" the wild Annapolis and cultivating it on plantations in the colony. This has now been found quite practicable, and new and valuable material for the spun silk industry would be of such importance that it is to be hoped energy and capital will be forthcoming for the development of this industry in Uganda, whence a certain amount of silk has already been exported, and also in other British African colonies.

Specimens of Uganda raw silk and of yarns and fabrics manufactured from it can be seen in the public exhibition galleries of the Imperial Institute, S.W.

Radium's Energy

A Giant Force That May Some Day Supply Cheap Power

Sir Ernest Rutherford, the distinguished scientist, has been pointing out, in Manchester, the tremendous energy locked up in radium. If it were only for loaves.

Speaking of the intense energy contained in these substances, Sir Ernest said that what scientists wanted to ascertain was how we could realize it for our own power. If that energy could be made available we should enter upon a new era in the supply of energy. It would be possible for one pound of material to obtain as much energy as practically from one hundred million pounds of coal.

Fortunately at the present time we had found out a great deal about dealing with these forces, and personally he was very hopeful we should not discover it too late. He was living in peace with his neighbor. There was no doubt if it was once discovered a few hundredweight of such material would shake, if not rock, the earth.

Sir Ernest Rutherford said the ordinary atoms with which we were familiar had the property, as far as we know, of being permanent and indestructible, but the atoms of which he proposed to speak might be taken as atoms of unstable elements—elements which did not last forever, but had a certain defined and limited life, disappearing and giving rise to a series of other substances. In radium and other radioactive substances were witnessing, for the first time in nature, the actual cause of the transformation of matter. It was not because we could influence at all; it had always been going on in nature, and in the history of the planet. Radium was several million times more active than the mineral from which it was derived. Immense improvement had been made in the study of the properties of these radio (active) substances and the separation of radium had entered on a very large commercial scale.

Sir Ernest gave demonstrations of the intensity of the radioactive emanations, and showed their action on a photographic plate, and the phosphorescence which was observed when brought into the close neighborhood of certain salts. Radiation from radium, he said, was ten times more penetrating than any penetrating influence we know of. Radium and radio-active substances had an enormous interest from the scientific point of view, and recently they had been utilized greatly from the medical standpoint in the treatment of certain diseases.—Manchester Guardian.

The Kaiser's Ear

The Kaiser has a habit of pulling one of his ears when he is vexed about anything, and once when he was on a visit to England with the present king he pulled his ear continually.

"Why do you pull your ear?"

"Because I am annoyed," replied the Kaiser.

"And when you are very much annoyed, what do you do then?" continued the prince.

"Why, then," said the Kaiser, "I pull some one else's ear."

And there the conversation died.

It is sometimes forgotten that Portugal governs more territory than either Austria, Italy or Turkey, for its colonies are in area equal to four times the size of Germany. Furthermore, they nearly all pay their own way without drawing on the resources of the parent state.

"I've borrowed my neighbor's photograph for this evening."

"Oh, that's a pity."

"No, but by thunder I'm going to have one quiet evening of home."

Varieties of Alfalfa

Some Alfalfa Experiments Made in
North Dakota

Twenty-two different kinds of alfalfa have been experimented with on the high plains of the western part of North Dakota. These included strains from Europe, Asia and South and North America. Parts of these experiments were conducted during the winter of 1906-7. One of the severest tests the western states has ever experienced.

In spite of the persistently low temperature of the winter, some alfalfa lived through on all plots, including even the very tender Peruvian variety, which killed out badly that winter as far south as the Panhandle of Texas, and again during the mild winter of 1908-9 as far south as Stockton, Kansas. This extraordinary result in Dakota was due to the character of the weather—autumn drought and the gradual approach of cold weather hardened the tissues of the plants, enabling gradual and perfect dormancy. A protective covering of snow came in December and remained until nearly the end of March. To these factors and the gradual return of spring was due the fact that a percentage of all strains came safely through the winter.

The important point, however, is that Grimm alfalfa and two Turkish strains sustained no loss whatever. There can be little doubt that Grimm and the Ontario variegated originally from the same source, near the borders of Germany and Russia, and are, in fact, identical in origin. They are both alike handy and suited to Ontario conditions.—Toronto Globe.

THE BEST MEDICINE FOR THE BABY

The best medicine for the baby is the one that never fails to cure and which, at the same time, the mother may give with perfect assurance that it is absolutely safe. Such a medicine is Baby's Own Tablets. They are the only medicine absolutely guaranteed entirely free from injurious drugs and what is more they never fail to free the baby from those minor ills of infancy and childhood. Every mother has used them she would use no other medicine. They regulate the stomach and bowels, drive out constipation, expel worms and make teething easy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Thomas A. Edison signalled his last birthday—he was sixty-nine years of age. He was not a man of drink that for twenty years or so and then cut it down to 1 per cent. Out of all whiskey and strong drinks at once."

Minard's Liniment Cures Burns, Etc.

Soft corsets are difficult to eradicate, but Holloway's Air Cure will draw them out painlessly.

Now that all nations are talking preparedness, why not discuss health preparedness. While we have been negligent in protecting our country against the enemy, we have also failed lamentably in fortifying our human bodies against disease germs.

This has been proven in the recruiting offices, where so many men have been turned down by the examining doctors. Weak heart action; diseased lungs; thin, watery blood; defective eyesight, resulting from exhausted nerves. These are among the prevailing derangements which the examining doctors find.

Health has been neglected. The blood has not been kept in healthful condition. The nervous system has got run down, and the subject under inspection is in no condition to fight the enemies of his country or to withstand the attack of disease germs.

Health preparedness means the use of preventive treatment, such as Dr. Chase's Nerve Food, to enrich the blood, reinvigorate the starved nerve cells and keep the health at high-water mark. In this condition you have the strength, vigor and confidence which is necessary to the success and enjoyment of life. You have the vitality to defy disease germs and thereby escape many a life which find an easy prey in the run-down system.

Dr. Chase's Nerve Food, by means of its blood-forming and nerve-invigorating influence, cures headache, nervous indigestion, sleeplessness and irritability, and prevents such serious diseases as nervous prostration, locomotor ataxia and paralysis.

50 cents a box, 6 for \$2.50. All dealers, or Edman, Boston & Co., London, Toronto, Montreal and accepting a substitute. Imitations cheap.

ELWILGETT COMPANY LIMITED

Russia to Build Railway in China

The Chinese government has signed an agreement permitting Russia to construct a railroad in Manchuria. The railroad will give Russia control in northern Manchuria, in compensation for the railway rights granted to Japan in Southern Manchuria. Japan has concurred in this arrangement. The new line will run from Harbin, on the Siberian railroad, in a northerly direction across Manchuria to Aihara, near the Russian frontier. A branch line will be built from Merzen southward to Telshikhar, near the Mongolian border, where it will form a junction with the trans-Siberian road. The new railroad will be 600 miles long. The route is part of that formerly negotiated for by Americans.

Russia will raise funds for construction of the road by floating a loan of \$5,000,000.

A soldier, home from the trenches, says that the power of the horses to detect the approach of poisonous gas is quite remarkable. They seem to become conscious of the deadly menace before the men have any apprehension of it, and they cry out loudly as though in terror and pain.

Ready-made Medicine.—You need no physician for ordinary ills when you have a bottle of Dr. Thomas' Electric Oil. For coughs, colds, sore throat, bronchial troubles, it is invaluable for colds, croup, bruises, sprains etc. It is unsurpassed, while for cuts, sores, ulcers and the like it is an unsurpassable healer. It needs no testimonial other than the use, and that will satisfy anyone as to its effectiveness.

Scotland has rarely, if ever, possessed the hands of its wage-earning people so much ready cash, says the Glasgow Herald. Glasgow is replaced in goods, the shopkeepers. Ask the directors of our places of public entertainment. Ask the publicans themselves.

MAGIC BAKING POWDER

no more than the ordinary kinds. For economy, buy the one pound tin.

ELWILGETT COMPANY LIMITED

Lord Fisher's Prediction

In 1908 Lord Fisher wrote in his daughter's birthday book that Germany would be at war with England in 1914, and that Jellicoe would be the Nelson of the fleet. He justified his prophecy at the time by saying that by 1914 the Kiel canal would be enlarged, the German fleet greatly strengthened and the financial burden in Germany so great that it must seek to conquer or diminish armaments.—London Chronicle.

One of the Strange Paradoxes

One "savvy" and "uncivilized" Pukim chief inside the Arctic Circle subscribes two dollars to feed the wretched population being starved to death by the "civilized" German conqueror. One of the little paradoxes of the year of our Lord 1914.—Moscow Star.

Shaving a Pleasure —Not an Operation

"USIT," the wonderful new skin food and wrinkle chaser, is a boon to men with heavy, wiry beards and tender skin. A man who has used it for a short time said recently, "Shaving is a pleasure now, as it used to be considered at most an operation."

It is only necessary to rub a few drops of it into the beard before lathering to enjoy an easy, quick shave. It penetrates into the pores, softens the beard, and gives a clean, close shave. The beard peels right off, without pulling a hair.

It is kind to tender skin. There is no smarting or soreness after shaving. Gives the face a fine feeling of smoothness and freshness.

"USIT" prevents dryness of the skin caused by exposure to excessive winds. Accept no substitute.

Send 50c today for a trial bottle—sufficient for over six weeks' use.

USIT MANUFACTURING CO., 475 Roncevalles Avenue, Toronto.

WOMEN WORKERS NEW CHANCES ONE OF THE RESULTS OF WAR

French Writer Believes That Woman's Sphere in General Will Be Greatly Enlarged in the Years Following Immediately After the War

"Among the consequences of the war," says a writer in the Paris Temps of January 29, "there is one which is being much discussed these days and which undoubtedly will have grave effects upon society. It is the diminution of the adult male population in Europe. A loss of eight to ten million men in the ages between 18 and 45 years certainly constitutes an element which is liable to cause a great change in the European nations."

"Mr. Arthur Girault, a professor at the University of Poitiers, has given a searching consideration to the question and has come to the decision that the disturbed equilibrium in the numerical proportion between the sexes will cause a situation of a revolutionary character as far as social conditions are concerned.

"It will be the women's era after the war, for they are naturally those who will benefit by the disproportion of the sexes. 'Benefit' is only a mode of speech, for one likes to believe that the majority of women are not so susceptible to feminine emancipation that for a few rights by which they could gain only mediocre advantages they would voluntarily sacrifice that other precious privilege of being the ones to whom we give our love and whom we ever stand ready to defend.

"Mr. Girault states that every husband is killing a youth at the front provides at the same time an old maid's bonnet for some young girl. Since the number of eligibles among men will be much smaller than that of young women in the marriage age, one must be prepared for many rather ill-matched unions. For men the 'courtship age' will be extended considerably, and marriage which formerly would have been deemed nothing short of scandalous, on account of great disparity in age or social status

no longer will astonish anyone. The post-war generation will find the post-bellum period the golden age. Although a man's availability for marriage is not unlimited indefinitely, there will not be sufficient array of men for all the women who will be available. There will be a great increase in the number of women who will find their consolation in an unrequited love. Conjugial happiness in lavishing them on their admirers will be rare. "So much for what may be termed the sentimental side of the matter," says the author. "The other side is of still greater importance. Having no prospects of getting married, many of the young men will be forced to go around for some kind of work. They will learn a living. By and by they will be sought out by women who will come to them in men in occupations which few of them would have chosen. They will be glad to get out of the way of disputing with the other sex. They will seek positions in banks, big business, or in the army or navy. They also make their appearance in trades requiring faithful application, and in the professions. They will be those of the thallor and the hairdresser.

"Mr. Girault makes the rash prediction that the women, aroused to the realization of their own strength and the necessity of earning their own bread, will make society less frivoli-ous, less fond of luxury and vanity and dress-for-a-time. But the professor fears that the consciousness of greater self-sufficiency will rather encourage the tendencies of the feminine emancipation. He suggests himself or move in that direction is destined to be accepted as soon as started. He intimates that the women will be wiser, if all over Europe, than

set up a claim for the enfranchisement of "war widows." His reasoning runs like this: If any one should bid a word to say in regard to the destinies of a country, it ought to be the widow or the man who has given his life to save it, she whose sacred duty it is to maintain and defend the traditions of the family her husband-soldier had founded, and to rear his children to become like their father. Leaving all academic discussion of the merits of woman suffrage aside, this claim impresses itself as a moral

"Here is a problem which necessarily must call forth heated controversy. After all, the distinguished professor of political economy at Poitiers might be willing to admit that the admirable French mothers, who inculcated the sentiments of noble sacrifice for home and country in the generation defending today the universal cause of justice and liberty, would hardly be in need of the right to vote in order

"All the same, with or without suffrage, it is quite sure that woman's sphere in general will be extraordinarily enlarged in the years following immediately upon the war. The future of the emancipation movement will depend to a great extent on the manner in which the women are going to fulfill their new mission. Until the middle of this century, when the new

The British Aeronautical Institute has asked the government's permission to undertake, at its own expense, the salvage of the Zeppelin L15, which is lying in shallow water off the mouth of the Thames.

salvage is undertaken by aircraft
 experts, "the Zeppelin can be saved,
 built and launched against the
 enemy within three months."

Mike Rosse is looking for the
hotter climate down below—in the
States.

Mrs. W. H. Hannan and daughter,
of Cowley, spent Tuesday in
town.

The British steamer McFadden
has sent a German submarine to
bottom.

The British fleet ranks above all
others. They're now sending down
zeppelins by the bunch.

A sale of lands for arrears of
school taxes will take place at
Cowley on June 9th.

Katherine says when she takes
down her hair it reaches the floor.
It does when she happens to
drop it.

The Masonic Grand Lodge will
meet at Panff on May 31st. J. W.
Verge, W.M., has been elected to
represent Rocky Mountain Lodge.

Sergt.-Major Loftus, who spent
several days with friends in Leth-
bridge, returned to town Monday
morning.

Tuesday, June 27th, at 10
o'clock in the forenoon, at the office
of the secretary-treasurer of the
Village of Provost, has been ap-
pointed as the time and place for
the holding of a court of confirma-
tion of the tax enforcement return
of the rural municipality of Hill-
crest No. 362.

A good story is told of a mili-
tary company on duty with whom
plans were made for a scout be-
tween Blairmore and Coleman. He
was advised to "ford the river"
between the above points and took
it to mean that he and his charge
should wade the river against the
current for the whole distance,
which they did, arriving at Cole-
man about five hours later with
dry collars and caps only.

The Submarine Traps

A good deal has appeared in print
about trapping submarines, but the Ad-
miralty has not yet seen its way clear to
gratify a not unimportant public curiosity
as to the modus operandi, remarks an
exchange. *Yasicki Zeitung*, of Berlin,
being under no censorship in this regard,
undertakes to tell how the thing is done,
and at the same time to let its readers
into the secret of the manner in which
the cross Channel passage is projected.
We quote:

A net has been drawn from Dover to
the French coast opposite, and another
from Portland Bill, near Weymouth, to
Cape La Hougue, between these two
nets there is a space of over 100 miles,
sufficient for all transport services. But
the net extends from the Mull of Cantyre in
Scotland to Ireland, and another from
Cansore Head in Ireland to St. David's
Head in South Wales, in order to protect
the Irish sea. To allow the passage of
trading vessels and the warships of the
Allies these nets have been fitted with
gates, which can be shut and opened
at pleasure. These passages are known
only to the British Admiralty, and are
often changed. Since submarines can
descend to 300 feet under water these
nets reach to sea bottom, as the Channel
is never deeper than 250. The upper
edges of the net is fastened to buoys, and
both upper and lower edges are anchored
so that the storms and ebb and flood
tides cannot change the position of the
net, or damage it in any way. The an-
chor chains are always shortened, so that
the buoys are a few feet below the level
of the water, consequently the submarines
cannot see the nets either above or below
the water. If one of them plunges into
the net it becomes entangled and so dam-
aged that it is an easy prey for the
cruiser.—E.S.

Ring Us Up

Lost,
Eloped,
Married,
Proposed,
Left town,
Had a fire,
Embezzled,
Had a baby,
Been arrested,
Come to town,
Broken a limb,
Bought a home,
Committed murder,
Sought for a divorce,
Fallen from an aeroplane,
Seen The Coleman Bulletin,
That's news—telephone us.

Had It All Arranged

The father—"Say, daughter, isn't it
about time you acquainted what that
young man's intentions are?"
The daughter—"See here dad, when I
get good and ready I'll arrange that
young man's intentions myself; no need
to ask him anything."
This is said to have local significance.

Anglican Church

Service of a festival character was held
on Sunday evening, May 7th. Rev. H. H.
Clay was the preacher and a large con-
gregation was in attendance. Mr. W.
Shaw rendered the solo "Calvary" in
most devotional way, and the anthem
"Lo in the grave" was beautifully ren-
dered as a quartette, unaccompanied.
This week a churchman of long stand-
ing in The Pass has very generously pre-
sented the Anglican church with a pul-
pit, which has been made to design by
D. A. Sinclair. It is a very pleasing and
useful addition, for which the congrega-
tion is most grateful. So far as the fu-
ture is concerned, the prospects of the
church in Blairmore seem most encourag-
ing.

Morning Services usual on Sunday,
the 14th, at 11 a.m., conducted by the
Rev. H. H. Clay. A hearty welcome to all.

Earl St. Aldwyn, the veteran
British statesman, best known as
Sir Michael Hicks-Beach, died last
Sunday at his country home, Cold-
reth, Gloucestershire. He was
born in 1837. He entered
parliament in 1864, representing
East Gloucestershire until 1885,
when he ran for West Bristol and
represented that constituency in the
commons until 1900. He was
twice chief secretary for Ireland
and twice chancellor of the ex-
chequer, and had been secretary
for the colonies and president of
the board of trade.

Cowley Happenings

R. Coates has purchased a new
Ford car.

Cheer up. It will get warm after
a while.

Miss R. A. Swinney was in Pincher
Creek on Thursday last.

Miss Blanche Fortier was visiting
at Pincher Creek on Monday.

Walter Gardner, of Mavoroff, was
in town on business Wednesday.

Mr. and Mrs. R. Coates went in to
Pincher Creek on business Wednes-
day.

Alex. Gaultard and Nicholas River,
of Mavoroff, were in town on Satur-
day.

Miss Mary McDougall, of Peman,
is visiting friends in Cowley this
week.

N. W. Linton, of Heath Creek, has
gone to join his wife, who is expec-
ting a child at Coalville.

Mr. and Mrs. Corney, who had
been visiting friends in Bellevue,
have returned home.

Les Tustian and wife have taken
up residence in the house formerly
occupied by Mr. and Mrs. Assey.

J. Dooner has moved from the
Koon block to the house of T. Ben-
on the outskirts of the town. Mr.
Koon has enlisted in the 12nd bat-
talion.

Miss Annie Welch, of Lindbrook,
is riding back and forth from her
home morning and evening to attend
school in Cowley, which speaks well
for the efficiency of this school.

Quite an exciting time took place
on Wednesday last when a large
crowd of people gathered, to see the
new chemical engine put to the test
on an old building south of the town
which was filled with boxes and all
sorts of junk and the whole saturated
with coal oil and gasoline. The fire
was allowed to burn considerable
length of time before the chemicals were
turned on, which extinguished the
flames almost in a second, the engine
thus proving a success.

Bellevue Happenings

James Mac's and has been confined
in his home with la grippe.

Mrs. (Dr.) MacKenzie returned
from Calgary on Tuesday.

Mr. Bonny has moved his family
to his ranch near Hurns.

About \$15,000 were paid out by the
local mine company on Saturday.

A number of cases of measles have
developed here during the week.

Jack Oliphant has severed his
connection with the Southern hotel.

R. Niven and daughter, of Frank,
were visitors here during the week.

James Watson, of Michel, is here
for a few days renewing acquaint-
ances.

Mrs. William Patterson is spend-
ing a few days with her parents at
Cowley.

Fred Wolstenholme is building a
verandah to the house occupied by
James Haddad.

Eugene Large is playing between
the earth and the heavens with a
new-life automobile.

Mrs. G. W. Goodwin, Mrs. R.
Dickens and Mrs. W. Jolly, of Frank,
were visitors here this week.

"C" Company's football team went
to Coleman on Saturday, where they
defeated a team from "B" Company
in the time of 6 to 3.

Mr. Amos, of Blairmore, preached
in the Bellevue Methodist church on
Sunday evening last. The pulpit
will be occupied next Sunday by
Rev. Mr. Young, of Frank.

The soldiers' dance held in the
Workers' Hall on Tuesday night was
well attended. The presentation of
first-aid certificates to a number of
candidates, as well as certificates to
Dr. Ross and MacKenzie, was made
through Miss Hattie Bowen.

THREE HOUSES FOR RENT,
near the Rosedale Dairy, Bellevue.
Apply to Fred Chappell, Burnett's
store.

Liquor advertising, either in
newspapers or by billboards, is not
permitted under the Ontario Tem-
perance act. Personal solicitation
for beverages, however, is barred,
although agents will still be able to
canvass for orders for mechanical
and medicinal purposes.

A British Serge

of Fleecy Softness

"I can get a custom tailor suit for
that price," said a gentleman to the
Semi-ready man, who was displaying
\$25, and \$30, suits.

So you may.

But one could not get a suit half
so good for the same price.

A student of dress would pay
twice as much for a Semi-ready
suit as he would pay his tailor for a
"bespoke suit." The Semi-ready
suits are cut to a statistical physique
type. He knows they fit him.

Improvement of quality has occu-
pied the "Semi-ready" designers.
They know there is a demand for
real worth. The average man wants
what he wants when he wants it—
and he wants it to be good.

Semi-ready in good Tailoring.
Suits for \$15, \$20,
and \$25.

Semi-ready Tailoring

W. E. Cooper,

Blairmore, Alberta

Frank Happenings

"Bill" Hilton's "Batabana" is said
to be working fine, giving pay, and
the kid a chance to put in overtime.

Mrs. Samuel Wallace left last week
for her old home at Westville, Nova
Scotia, where she will reside in
future.

James Naylor and R. W. Thomp-
son returned to Pincher Creek on
Sunday last, where R. W. had some
repairs effected to his Ford.

At a meeting of the committees
of the local branch of the Patriotic fund
held last week, the sum of \$500 was
voted to the Patriotic fund and \$150
to the Red Cross, which makes a total
of about \$14.00 donated by the
Franco Canadian Collieries' em-
ployees to date.

The following is the report of the
local school for the month of April:
Total enrolment for the month 121.
Average daily attendance 105.73.
Aggregate attendance 1707.

Percentage of attendance 87.42.

Grades III to VII, A. V. Far-
ner, principal—Enrollment for month
35, average daily attendance 20.28,
percentage of attendance 16.51, ag-
gregate attendance 321. The fol-
lowing pupils had a perfect record
for attendance and punctuality:

Robert Barnhill, John Dicken, Mary
Rezeanova, Andy Montalbeti, Mary
Holub.

Grades III to VII, A. V. Far-
ner, principal—Enrollment for
month 39, average daily attendance
23.85, percentage of attendance
69.84, aggregate attendance 625.5.
Perfect in attendance and punctual-
ity: Duncan Baird, Frank Holub,
Vincent Black, Herbert Mamel, An-
nie Houda, Lucy Gume, Esther
Rezeanova, Francis Andel.

Grade I, E. A. Crough, teacher—
Enrollment for month 47, average
daily attendance 10.61, percentage
of attendance 86.4, aggregate 690.5.
The following pupils had a perfect
record for attendance and punctual-
ity: Louis Weir, Annie Holub, Jes-
sie McDonald, Joe Blackie.

Local and General

COMING—June 5th and 6th.
"The Eternal City" in eight reels.

Pte William Boyd, of the 82nd,
is in town visiting his parents.

A grand social and dance will
be given at the opera house on
Tuesday night next, under the
auspices of the Blairmore Catho-
lics.

R. J. Ritchie-Patterson, of the
W. A. Henderson Co., Lethbridge,
was in town yesterday to audit the
town books for the quarter ending
March 31st.

See the announcements regarding
the Victoria Day sports to be held
in Blairmore on May 24th. An in-
teresting programme of events is
being arranged, and it is to be
hoped that the weather man will
be at his best on that day.

A Ford car is a wonderful ma-

chine. L. Wheeler has one, and
on Wednesday ran short of gaso-
line when about midway between
Coleman and Blairmore. He im-
mediately made a few adjustments
and ran his car into Blairmore on
hot air, of which this metropolis
has an oversupply.

We note that another preacher
has been guilty of kissing a woman
member of his congregation and
has resigned his pastorate. The
preacher ought to leave this kind
of recreation to us editors. We
don't have so much to lose if we
get caught.

The British government has
finally announced its intention of
resorting to conscription. On this
side of the water we cannot judge
of conditions in the old country.
It may be necessary there, for Ger-
many must be whipped. But action
for conscription in Canada
is harmful in no way to one.
—Nanton News.

A suit for \$750,000 for the loss
of her husband on the Lusitania,
which was torpedoed by a German
submarine, was filed in the federal
court at New York, against the Can-
adian Steamship company by Mrs.
May Davis Hopkins of Louisville,
Ky., widow of A. L. Hopkins. He
was president of the Newport News
Ship building and Drydock com-
pany.

On the morning of May 10, very
early in the morning—at 6.30
o'clock to be precise—200 women
will arise to the sound of reveille,
don their uniforms, and set out at
the big business of demonstrating
at their camp at Chevy Chase,
within sight of the dome of the
capitol, at Washington, that get-
ting ready for war is not a man's
job alone.

A preacher was passing down the
main street of one of our cities and
saw a news boy, hugging a bundle
of papers, crouched in a corner half
asleep. Touching him on the
shoulder he said, "Sonny, why
don't you call your papers?"
"Cos," said the boy, "there's noth-
ing in 'em to bother about."
That's why some business men
don't advertise—they have nothing
to bother about.

Official confirmation of the re-
port that the Cunard Steamship
Co. would take over the C.R.R.
liabilities has been given out. The
steamers in question are those
which before the war were running
from Avonmouth and Rotterdam,
and the service will be maintained
between Canada and the United
Kingdom and on the continent.
The various Canadian services of
the Cunard line and the Canadian
Northern railway system will, in
effect, become a single transporta-
tion unit between Europe and the
Dominion.

"God Save The King"

Advertising The Up-to-Date Farm

The Up-to-Date Farmer Makes His Place Attractive From the Road

Every business enterprise, be it farming or a commercial proposition, is becoming more and more dependent on extensive advertising for its success. The association composed of the citrus-fruit producers of California are spending thousands of dollars a year in a systematic advertising scheme; and why? Because it means more money to the individual producer.

People patronize the man or the concern who most effectively brings his business to the attention of the general public and keeps it there. This can be done in several ways, but chiefly by displaying characteristic features of the business which will attract the public eye, and by advertising in the press. We all realize, for instance, how little attraction the plain structure of a house has for us, but we, in spite of ourselves, stop and admire the tastefully decorated and well-lighted house in the next block. In ninety-nine cases out of a hundred we go to the latter to purchase an article. The city business houses recognize the value of putting an attractive advertising front and spend small fortunes each year on this one feature alone.

What this attractive advertising scheme will do for the farmers co-operative marketing association and the city business it will do for the individual farmer, whether he be a fruit grower, stock raiser, dairyman, or seed grower. This is an age of competition, hence the farmer who sells his products successfully must in some way attract the buyer to him.

Suppose two dairymen, both Ayrshire men, live side by side on farms of equal size; one of them is along the road in front of his home, an attractive and nicely swinging gate which gives him the appearance of a background, and the other has a window display which commands attention.

The up-to-date farmer, the one who makes his place attractive from the road; this is the advertising medium which brings him the results. The entrance should receive first consideration and then the farm buildings, and then the hidden from view by trees is almost as undesirable as having them out in the open without any background whatever. The house and buildings will be twice as attractive and consequently more profitable and saleable, and be much more successful as an advertising medium if seen against background and trees.

These places would you go in search of a good bunch of Ayrshires? The up-to-date farmer, the one who makes his place attractive from the road; this is the advertising medium which brings him the results. The entrance should receive first consideration and then the farm buildings, and then the hidden from view by trees is almost as undesirable as having them out in the open without any background whatever. The house and buildings will be twice as attractive and consequently more profitable and saleable, and be much more successful as an advertising medium if seen against background and trees.

Orchards rather than empty sky. If the house is attractive and the farm buildings, and then the hidden from view by trees is almost as undesirable as having them out in the open without any background whatever. The house and buildings will be twice as attractive and consequently more profitable and saleable, and be much more successful as an advertising medium if seen against background and trees.

As the merchant tries to get in dividuality in his window display, so

should the farmer be laying out the ground around his buildings. He has not the time or even the money to bother with temporary plantings, but hardy, permanent shrubs and trees will give us good or even a better effect. Bare rough walls or unsightly outbuildings can be effectively screened from view by clinging vines, which, at the same time, add much to the beauty of the surroundings.

First impressions sink deepest. Often by the simple adjustment of the drive, the proper effect of bringing the house closer or placing it farther from the road can be accomplished. If the home is surrounded by trees of the more desirable kind, thinning them down to one or two at either end of the buildings will set the place off well against the sky line. Where the thoughtfulness of planting was lacking in the past, it is not too late to make time to place a maple or an elm where it will increase in value with each succeeding year until it has added hundreds of dollars to the worth of the property. On the other hand, if our forefathers have been too zealous in the planting of trees if the house is darkened and dampened and fairly smothered with red it is just as necessary to cut down as it is to plant.

The farmer, who continually advertises by keeping his farm attractive, is a changeable and adaptable man, who will live and, at the same time, get higher prices for his seed, stock, and products. His neighbors think he is lucky because buyers naturally stop at his place. However, it is not a matter of accident that is the secret of his success, but it is in his system of advertising and his window display which commands attention.

Holland as a War Factor

Has Only a Small Army, but Men Are Well Trained

Apart from aiding the allies by giving opportunities to them to attack Germany on an open flank, Holland probably could be of but little fighting value were it to enter the European struggle in these days when armies are numbered in the millions and dreadnaughts and battle cruisers in the hundreds. The peace strength of the active army is 40,000 men. For some months past, however, the army has been up to war strength, and it is quite evident that these men are all, however, well trained, because of the compulsory system of military service.

The Dutch navy consists of 7 battleships, 4 cruisers, 40 torpedo boats, 3 submarines and a number of gunboats for coast defense. In addition to these there are at least eight destroyers. Four more were being built in Germany when the war broke out, but these were taken over by the Germans. The Dutch government immediately laid down replacement orders in Holland, and doubtless some of these have been since completed.

Holland is bordered on the south by Belgium and on the east by Germany. On the former side the country is quite level, on the latter more hilly; the land frontier is open all round. The Dutch coast is defended by few fortresses. On these sides are lines of more or less permanent works, which can be rendered difficult to attack by inundations. There are also strong works on the coast. Amsterdam is fortified, the possibility of inundations there precluding any successful attack. The coast defenses are in good condition.

The number of vessels belonging to the Dutch mercantile marine at the end of 1912 (latest figures available) was: Sailing vessels, 407, 40,199 English tons; steamers, 387, 647,438 English tons. The tonnage of Dutch vessels which entered and cleared at the ports of the Netherlands in 1913 was: Entered, 18,128,000; cleared, 18,021,000. Many Dutch vessels are engaged in the carrying trade between foreign ports.

Pat Murphy, a contractor, became rich and prosperous, and bought an expensive automobile. So Mrs. Murphy invited Mrs. O'Hara for a ride in it.

"Whatever you do, Mrs. O'Hara, don't talk to the sheriff; not a single whisper to him, for I'll take his mind off what he's doing."

The chauffeur slipped around one corner and then around another; at times the car would be on two wheels.

"Mr. Shoffer, I beg your pardon. I was told not to speak to you at all, but Mrs. Murphy has been in the car for the last ten minutes."

The Dutch people occupy a country which contains 12,630 square miles—little more than one-tenth of the size of Great Britain and Ireland, the population being just over 6,000,000. Holland is not only flat, it is hollow. Hence its name—"Hollowland." Along the canals the meadows are 10 feet or 12 feet, sometimes more, beneath the waterline. By the sea, at high tide, there may be a difference in the level of the soil and the level of the water of five feet or more.

Of all the new explosives the most difficult to handle is nitro-cellulose. When allowed to dry it appears as a brown powder, and so unstable in this powder form that a single puff of wind will set it off. The experiment has been tried of leaving a few grains of nitro-cellulose, with a few grains of sugar. The first blue bottle that flew on the table and began to crack among the grains caused an explosion.

A BRIGHT TOBACCO OF THE FINEST QUALITY

TO FRANCE

(This striking poem is by a gifted Canadian, at present on the Canadian Pacific Railway's publicity staff at Calgary, Alberta. He is the author of several volumes of fiction and verse.)

We little know thee, France; we thought—
And God forgive us that our thought was sin—
We thought thee fair without, and
And we did not seek to know thee as we ought.

We know the face thou turnest to the westward,
The palmed face, the sensuous design,
We hold thy virtue subtle as thy wine;
As cheap and subtle; neighbor, we have erred.

For thou hadst poured thy life in every mould
And we had found the mould of our desire;
We warmed our marrow at thy Latin fire,
And found it hot, for we were Saxon-cold.

Forgive us, France; we passed the lie along;
"A thoughtless people, frivolous and gay,"
And now we know thee; we can only say
Forgive us, France; we sinned; we did thee wrong.

How thy will shows have risen to thy need,
No art can picture on the printed page
But hourly time shall beckon, age to age,
The deeds of France, for France is great indeed.

And that black lust that would thy virtue rape
And set a ransom on thy bruised
Its spawnings rot among the countless dead,
And all its land is wrapped in tears and crepe.

And you have suffered; who shall count the toll?
Thy cup of grief shall silently endure;
But thy great spirit riseth white and pure,
For France is still a nation and a soul!

—Robert J. C. Stead.

Testing Dairy Products

Valuable Bulletin issued by the Department of Agriculture. The price of success is attention to detail. This fact is distinctly emphasized in a bulletin recently issued by the dairy and food storage branch of the federal department of agriculture, under the title of "The Testing of Milk and Cream and Dairy Products by Means of the Babcock Test," and written by J. P. Singleton, chief inspector of dairy products.

Without being profane, Mr. Singleton tells in plain language about all that is to be of the practical application of the test, the care that should be taken of the component parts of the apparatus, the measurements advisable, and the methods that should be employed. The qualities naturally most emphasized are neatness, cleanliness and temperature.

The dairy commissioner in his introductory says there is nothing fundamentally new in the bulletin, but that the contents are presented with such a clearness of diction and the processes so aptly set forth that the result is a reliable handbook for those who value information in good the testing of milk, cream and so on. A number of exact and plain illustrations lend additional worth to a notable bulletin, the number of which is 45 of the dairy and food storage branch, and that these can be had by post free to the publication branch, department of agriculture, Ottawa.

No Cause To Complain
The work of the navy is silent, but it is nevertheless the commanding fact of the war. It is upon that work that the whole strategy of the allies is based, and we can conceive of no greater injustice to the navy and of more serious disservice to our cause than to suggest that in establishing our command of all the seas of the world our sailors are unemployed. If Germany conceives the seas without a challenge, of what have we to complain?—London Daily News.

A Sunday school teacher had been telling her class of little boys about golden crowns of glory and heavenly rewards for good people.
"Now, tell me," she asked at the end of the lesson, "who will get the biggest crown?"

There was silence for a minute. Then a bright little chap piped up: "Him who's got 't' biggest head."

"Mike," said Pat, "how do you tell the age of a fowl?"
"O! can always tell by the teeth," shot back Mike.

"By the teeth?" exclaimed Pat. "But a fowl ain't got no teeth!"
"No," admitted Mike, "O!-ha-ha."

Alky—"I'd like awfully to know whether one will marry or not."
Reggie—"Why don't you ask her, dear boy?"

Alky—"By jove! that's a good idea. I will. What a head you have, old man!"

A spendthrift is a person who saves his money for a rainy day, and then prays for rain.

The Value of Cold Storage

A Comprehensive Booklet issued Dealing With This Subject

Cold storage promises as the years pass to have a greater and greater effect on the cost of living. Not only storekeepers and hotelkeepers, but ordinary householders in "increasing numbers are coming to recognize that the buying of food in quantities and preserving in cold storage means a salubrious dividend on investment. Hence the general interest in the subject is shown by Bulletin 14, under the title of "The Cold Storage of Food Products," and written by J. A. Rudick, dairy and cold storage commissioner for the Dominion, and J. Burgess, cold storage inspector. Every person who makes use of a kitchen refrigerator, or places milk, butter, meats, fruit or vegetables in a cool cellar, puts into practice the principles which underlie the operation of the most up-to-date cold storage warehouse. An example of the benefits derived from the system is furnished in the suggestion that if it were not for the cold storage factories which are now available the price of eggs would, for lack of an immediate market, go so low during the laying period of the spring and early summer that the producer would be discouraged, while the scarcity that would result during the season of non-supply would cause a famine for all kinds of eggs to such an extent as to make them prohibitive for the majority of the people. Eggs are but one of the articles of food the price of which is regulated, and to some extent standardized, by cold storage. Dairy products, meat, fish and fruit can all be so kept and preserved if

the treatment set out in this bulletin, which can be had for the mere effort of application to the publications branch, department of agriculture, Ottawa, be followed. It outlines all the methods and processes that are pursued in the handling, storing, shipping and preservation of such perishable articles as apples, butter, cheese, vegetables, eggs, fish, game, meat, milk and poultry, the necessary temperatures being given in each instance and also in the care of furs and woollens.

General Wolfe No German
Dr. William Mackay of Inverness, Scotland, in lecturing before the historical Association of Scotland recently, remarked that "at Culloden the future General Wolfe was ordered by the Duke of Cumberland to shoot a wounded Highlander."

Wolfe, who was an Englishman, and not like Cumberland, a German, replied, "My commission is at the disposal of your highness, but I am not to commit murder."

Many years after, just before the taking of Quebec, Wolfe issued a general order that no church houses or buildings of any sort are to be burned or destroyed without orders. The Duke of Cumberland, in the execution of his orders, carried them out, their women and children, were to be treated with humanity. If any violence is offered to a woman, the offender shall be punished with death." The lecturer expressed the hope that some of the relatives of the Duke of Cumberland, who were in the Kaiser's army had known of these orders, and carried them out.

"There is much truth in the saying of the critic, that the economical wife is a woman who never allows a crumb to fall from her husband's table without carefully picking it up and putting it in her husband's bed," says a writer in an English paper.

Concentrated Economy

The beef of a whole bullock is required to make a dozen bottles of Bovril. You can safely reduce butchers' bills if you use Bovril in soups and stews. But—it must be Bovril, in the Bovril bottle. No substitute will do. The strength and nourishment of Bovril cannot be compressed into cheap cubes.

—Robert J. C. Stead.

HUSBAND SAVED HIS WIFE

Stopped Most Terrible Suffering by Getting Her Lydia E. Pinkham's Vegetable Compound.

Denison, Texas.—"After my little girl was born two years ago I began suffering with female trouble and could hardly do my work. I was very nervous but just kept dragging on until last summer when I got where I could not do my work. I would have a dull every day and hot flashes and dizzy spells and my head would ache. I got worse and worse until I was a walking skeleton and life was a burden to me until one day my husband's step-sister told my husband if he did not do something for me I would not last long and told him to get my medicine. So he got Lydia E. Pinkham's Vegetable Compound for me, and after taking the first three doses I began to improve and continued it up, and I have never had any female trouble since. I feel that I owe my life to you and your medicine. They did for me what doctors could not do and I will always praise it wherever I go."—Mrs. G. O. Lowmy, 419 W. Monterey Street, Denison, Texas.

If you are suffering from any form of female ill, get a bottle of Lydia E. Pinkham's Vegetable Compound, and commence the treatment without delay.

Want Reports of the Fire Losses
At a recent annual meeting of the commission of conservation a resolution was passed requesting the various provincial governments to take steps to secure complete reports of all losses from fire occurring within their boundaries and the extent, if any, to which the property was insured.

Among the presents sent by Japanese from all parts of the world to their emperor in honor of coronation, was the finest saddle horse that could be found in the United States. The Japanese society of San Francisco invited a Japanese major of cavalry, an expert horseman, to come to America to select the animal.

Well Built Is Built to Win

but in building brain and body, often the daily diet lacks certain essential mineral elements.

These necessary factors are abundantly supplied by the field grains, but are lacking in many foods—especially white flour, from which they are thrown out in the milling process to make the flour white.

Grape-Nuts

made of whole wheat and malted barley, supplies all the rich nutrient of the grains, including their vital mineral salts, those all-necessary builders of active brains and vigorous bodies.

To build right, eat Grape-Nuts.

"There's a Reason"

By the substitution of white for red wheat in London government of

"Perhaps so," said the young man. "But I shouldn't like to go around looking as shabby as he does."

The Foreigner And Prohibition

Foreigners in the West Are Opposed to the Liquor Traffic

The attitude of the foreigners of Saskatchewan and Manitoba towards prohibition will be welcome news to many of our readers. Rev. R. G. Scott of Saskatchewan, tells us that when all the bars had been closed, the government of these provinces had been closed or otherwise, according to the wish of the people, at the municipal elections in November. The entire province had been divided into liquor districts. Voting took place in these districts, in three of which liquor stores had already been established, and in four other districts an attempt was made to open new stores.

In every district the result was decided in favor of total abstinence. In the three districts where government stores had been in operation they were all wiped out by a vote of about two and a half to one. In the four districts where liquor stores had been made to open stores all the attempts failed by a vote of about the same relative proportions.

A particular interest had been attached to our district, as the population was largely foreign. The presence of large colonies of Canadians, French, Germans and Hungarians was thought to be a strong force to overcome. These people had always been accustomed to use liquor whenever they had the opportunity. Every wedding and every holiday was celebrated with plenty of liquor. Few were abstemious and none too poor to procure it. There was almost no organization, so that temperance work was done, if at all, by individuals, but the result was very encouraging.

A foreigner told me that he had always been a drinker and that if a vote had been taken when the liquor stores were first closed there would have been many liquor stores open. However, he thought the people had changed in four months that they got along very well without it and had more money than they ever had before. He said that few wanted the stores opened now.

A young Frenchman who has a family and is a good worker, said to me, "The bar got me a good many times, I spent a lot of money and lost a lot of time. I am glad the bar is gone and I don't want the thing to come again." In the rural municipality of Fish Creek where the population is Canadian, the result was equally strong for a liquor store, but it went by a mere two or three votes. In the village, where we have a very mixed population, went dry by 47 to 16. What has been done in the village is surely to be done in any place in Canada.

Coming to Manitoba, we find the foreigners quite as hostile to the liquor traffic. In Winnipeg alone there were 14,000 votes cast for the prohibition party, and three local papers that would not even print a liquor advertisement. The result was a credit to the cause of the temperance movement.

Wake up and press forward—H. A. McKee, M.C.P.S.

Make a Few Hundred Extra Out of Flax

So it After Wheat is in, on Late Fields and New Breaking

Records show that in the three prairie provinces the average flax crop exceeds 12 bushels per acre. As you know, the average price for several months past has been around \$1.00 a bushel, and if war conditions continue the 1916 crop will probably bring in even more.

Unlike the other grain crops, flax can be sown as late as the first week in June, and it does well on wet, low land and on new breaking, where you cannot make other grains pay at all. This \$20 to \$25 an acre from the sown and otherwise unproductive land is like found money, and is certainly worth going after. As the possibilities of flax become better known more and more farmers will be sure to take it up, but those who do not will miss out.

It is a Liver Pill—Many of the ailments that man has to contend with have their origin in a disordered liver, which is a delicate organ, peculiarly susceptible to the disturbances that come from irregular habits or lack of care in eating and drinking. This accounts for the great many liver regurgitators of our time. Of these there is none superior to Parmentier's Vegetable Pills. Their operation through the bowels is effective, and the most delicate can use them.

To Preserve the Horned Antelope
An antelope country has been passed setting apart a large area of land is the west for the use of the pronghorn antelope and to preserve the animals included in the reservation have been taken up by settlers and provision is made for granting these settlers new selections in the cancelled stock watering reserve. An excellent section in addition to the acre for acre allowance in the new location is to be granted to the live buildings and improvements.

Minard's Liniment Relieves Neuralgia
"I dress expensively. Do you think you could do as well for me in that respect as father does?"
"Perhaps so," said the young man. "But I shouldn't like to go around looking as shabby as he does."

Your Liver is Clogged up

That's Why You're Tired—Out of Your Liver

CARTER'S LITTLE LIVER PILLS will put you right. They do their duty. Constipation, Bilelessness, Indigestion, and Sick Headache. Small Pill, Small Dose, Small Price. Genuine must bear Signature.

Little Things Count

Even in a match you should consider the "Little Things," the wood—the composition—the strikeability—the flame.

EDDY'S MATCHES

are made of strong dry pine stems, with a secret perfected composition that guarantees "Every Match A Light." 65 years of knowing how—that's the reason!

All Eddy products are dependable products—Always.

"Never Again"

In the years before the war we supplied Germany with the money to pay for her armaments and attack us by granting her free access to our magnificent markets. It is no exaggeration to say that from the profits she thus obtained she built her dreadnoughts and developed her Zeppelins. Not only this, but we also allowed her to disarm us by destroying British industries vital to our self-defence. The coal-dye industry (on which the output of explosives so largely depends) and the manufacture of optical glass (essential for the periscopes of our submarines and for the lenses of our telescopes and gun sights) became her monopoly. "Never again" must be the resolve of the British nation. If it permits these conditions to return the fault will be certain—London Daily Mail.

Minard's Liniment Cures Dandruff.

In spite of a long and severe drought, extending over several months, Samoa—the first of the German colonies to be added by New Zealand to the British empire in the war—fourthly, the branch of the Bank of New Zealand established there is doing well. The local government—and the courts work very smoothly, and the high prices obtaining for copra keeps business in a thoroughly healthy condition.

What John A. Said

Because of a misquotation, a characteristic story of one of the greatest men Canada ever had, has been recalled to memory. The misquotation made Sir John Macdonald say, "I want friends to stand by me when I am wrong or mistaken; anybody will stand by you when you are on the top wave of success." That is too much like a cry for help to be the language of Sir John. Here is the whole story: A new member of parliament, desirous of impressing the Dominion member with his virility and his importance, said: "I will stand by you, sir, when you are right." "Oh," replied the premier, "the Grits will do that; what I want is a man who will stand by me when I am wrong." Sir John was just human enough to be wrong at times, and honest enough to admit it. But he objected to the judgment of the self-righteous—Christian Science Monitor.

Wise and experienced mothers know when their children are troubled with worms and lose no time in applying Miller's Worm Powders, the most effective vermifuge that can be used. It is also useful in clearing the system of worms and restoring those healthy conditions without which there can be no comfort, ease, or happy or robust growth. It is the most trustworthy of worm exterminators.

Portugal, with the Azores and Madeira islands, has a population of 1,587,000. The area is 25,497 square miles. The population of the republic's colonial possessions in Africa is 3,300,000 and these colonies have an area of 233,334 square miles. The colonies in Asia have an area of 1,833 square miles and a population of 850,000. Portuguese Africa is made up of Angola, the Congo, Guinea, East Africa, and some islands.

There is more catarrh in this section of the country than all other diseases combined. For a long time the doctors have been recommending a local remedy and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional ailment and its cure requires constitutional treatment. J. J. Thomson's Catarrh Cure, made by J. J. Thomson & Co., Toledo, Ohio, is the only Constitutional cure on the market. It takes internal action in doses from 18 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They are the only medicine for Catarrh that fails to cure. Send for circulars and testimonials. Address: J. J. Thomson & Co., Toledo, Ohio. Sold by Druggists. Take Hall's Family Pills for constipation.

Professor R. Junker, the distinguished German painter, has arrived at the headquarters of the German Crown Prince. He is going to have a series of sittings from the prince. Swiss newspapers state that the professor's visit forms part of a great publicity campaign in favor of the Crown Prince now in progress in Germany. Photographs depicting the Crown Prince performing acts of kindness to French peasant children are now on sale in Berlin. The chronic throat trouble and general health of the Kaiser is supposed to account for the propaganda.

Reign of Terror Throughout Germany
According to news from Germany by way of Switzerland a reign of terror has been inaugurated in the empire by the tribunals. Persons are accused of impossible crimes, such as furnishing supplies to the enemy. Many are kept in a state of fear. Laborers have been court-martialed for distributing Socialist appeals applying for the titillation of a campaign of peace.

Fly Poison Kills More Children Than All Other Poisons Combined

For Safety's Sake, Use

There is within your home, anywhere within baby's reach, a stainer of arsenic poisoned paper floating in water, or a can with a sweetened poisoned pick.

During 1915, 86 cases of fly poisoning were reported from 11 states; in 1914, 46 cases from 14 states. Fly poison kills more children than all other poisons combined. Yet fly poison still is left unguarded except in the homes where mothers have learned that the safe, sure, non-poisonous, efficient fly catcher and destroyer is

TANGLEFOOT

The Journal of the Michigan State Medical Society comments thus in a recent issue:

"Symptoms of arsenical poisoning are not infrequently observed, and undoubtedly a number of cases of cholera, typhoid, and other diseases, fly poisoning, has been the cause. If occurring, we are, as a result, a very serious disease. Health officials should become acquainted with the symptoms of fly poisoning. Our Michigan Legislature has passed a law, making it a crime to use arsenical fly paper, stating the sale of poisonous fly paper."

THERAPY, who has been practicing for many years in France. It is a new French remedy, made by a French physician, Dr. H. G. B. THERAPY, who has been practicing for many years in France.

Professor Sir J. J. Thomson tells of a scheme sent to the war inventions board. A man had sent him a pecking mortar, and his idea was to train a flock of cormorants to feed by putting their food in lines against a wall so that they might associate these lines with their food. They were then to be taken to Easton, where they would attack the chimneys at Krupp's works with such vigour as to destroy them.

Since the beginning of the war 3,000 dailies, weeklies and magazines have passed out of existence in Germany. This is due to the high prices of paper and ink, and to the shortage of advertisements. Many others will now be forced to cease publication. The Paper Manufacturers' Trust, which controls the paper market, has resolved to increase the price of paper by forty per cent.

Are these your symptoms?

Why You Should Use Dr. Cassell's Tablets.

1. Merit has won for Dr. Cassell's Tablets the largest sale of their class in the whole world. They are the most popular restorative medicine among all classes, the family remedy in homes unnumbered.
2. Dr. Cassell's Tablets are guaranteed absolutely pure in composition, they contain no drastic or dangerous drugs, the most delicate may take them with every confidence that benefit and nothing but benefit must follow.
3. Dr. Cassell's Tablets are equally suitable for old or young. From infancy to extreme age they are the great health builders.
4. The test of time and world-wide success has proved Dr. Cassell's Tablets to be the supreme remedy for all run-down conditions of nerve or body, the surest restorative for worn-out men and women.
5. Last of all, Dr. Cassell's Tablets are a British remedy, made in Britain, by British Pharmacists, financed by British capital, and sold throughout the British Empire.

Dr. Cassell's Tablets are Nutritive, Restorative, Alterative, and Anti-Spasmotic, and of great Therapeutic value in all derangements of the Nerve and Functional Systems in old or young. They are the recognised modern remedy for Nervous Breakdown, Nerve and Spinal Paralysis, Infantile Paralysis, Rickets, St. Vitus' Dance, Anemia, Sleeplessness, Kidney Disease, Dyspepsia, Stomach Catarrh, Headache, Neuralgia, Vitis, Exhaustion, Wasting, Loss of Flesh, and Premature Decay. Specially valuable for Nursing Mothers and during the Critical Periods of Life.

Druggists and Dealers throughout Canada sell Dr. Cassell's Tablets. If not procurable in your city send to F. H. C. & Co., Ltd., 100, McCord Street, Toronto; use table 59 cents six tablets for the price of five. Wat Tax Extra, 2 cents per tablet.

Sole Proprietors: Dr. Cassell & Co., Ltd., Manchester, Eng.

D. A. Sinclair this week unloaded another car of Fords.

COMING—June 5th and 6th, "The Eternal City," in tight reels.

The sum of \$200 was netted from a dance given at Pioneer Station on April 28th for the Patriotic Fund.

Seeding for this season must be finished in this district, for the 13th men have returned to Medicine Hat.

Rev. H. W. Toombs, of Nanton, occupied the pulpit of the Coleman Institutional church on Sunday last.

J. P. Marcellus, of Fishburn, was in town on Wednesday, on a visit to his son who is connected with the 192nd.

The Scottish trades unions' congress at Glasgow, by a vote of 66 to 46, declared for compulsory military service. The vote is considered significant.

We are pleased to learn that Robert Smallwood, who has been taking sulphur-bath treatment at Banff for the past two weeks for rheumatism, is much improved.

Sam McVicar, of Beaver Mines, was in town last week between trains. For ourselves, we prefer to ride on the buffers. Travelling between trains is rather a hopeless job. It takes one's wind so.

Rev. David Ross, who preached his farewell sermon to the congregation of First Baptist church, on Sunday, April 30th, left for New York and other eastern points on Saturday last.

Word has been received that Pte. Charles Quinette is now at Cliveden hospital, and latest information indicates that a complete recovery is now assured, with the possible exception of a slight stiffness in the back.

Calgary has adopted what its advocates call daylight saving for the summer months. This year it will start on the second Sunday in May, but in coming years it is to start the second Sunday in April, and is to be in effect until October 1st. All there is to it is that people are to go to work an hour earlier and quit an hour earlier, and they could have done that without moving the clocks ahead.

—Ed.
Earl Curzon, lord privy seal, announced in the house of lords that a total of 450 enemy ships had been detained, seized or captured by the Allies in all parts of the world since the beginning of the war. He added that it was an encouraging fact and a curious coincidence that the British merchant ships lost through war operations were exactly balanced in tonnage by the new ships added to the register during the war.

OF LOCAL AND GENERAL INTEREST

Mr. and Mrs. R. W. Riddell, of Coleman, are visiting in Nelson.

Saturday last was pay-day at the West Canadian Collieries.

Today is officially observed as Arbor Day throughout the province.

Miss C. Disney, of Coleman, has taken charge of a school at Beaver Mines.

L. P. Robert says there is no place like home, and he is now boarding elsewhere.

J. J. Stephenson, sales manager for the Macleod Flouring Mills Ltd., was in town on Monday.

BORN—At Morton's Harbor, Newfoundland, to Mr. and Mrs. J. D. S. Barrett, a daughter.

Mr. and Mrs. H. McVicar, formerly of Blairmore, but later of Bankhead, have returned to Bellevue, where Mr. McVicar will be employed in future. Mrs. McVicar paid a visit to some of her old friends in Blairmore on Monday.

The editor of the New York World has received the following cable from Lord Northcliffe: "Germany can have at once the peace it is obviously anxious for by getting out of Belgium, France, Serbia, Poland and Russia, paying full indemnity to these countries and making reparation for the outrages of its submarines."

The United States is still considering the creation of an army of 250,000 men. Canada has already an army of 310,000 men and will soon have half a million. The Toronto Star points out that whereas Canada used to protect her in case of war the roles are now reversed. In case of war Canada would now have much pleasure in protecting the United States.

—Colonist.

A well-known young officer in Vancouver obtained permission to marry about a month ago. Last week on receiving notification that his regiment was to get ready to go overseas, he sought and procured a transfer to a regiment which was not an overseas regiment. There was no justification for the transfer, and it is a distinct violation of the Military Regulations. No doubt if he had gone overseas, he would have swelled the number of incompetents (500 strong) who are walking about because they are not fit to lead, and are apparently "too proud to fight," but they are not too proud to draw officer's pay for loafing.—The Week.

A Chinaman must have nine lives, for on Tuesday night one of the celestials, a burly 200-pounder, was hit by the east bound train and afterwards conveyed to the Bellevue hospital where it was intended to fit him to a casket. Shortly after arrival at the hospital the doctor was called out to attend another patient, and while out the Chinaman came to life, dashed through a fancy window and on over the hill towards the railroad. Going down the hill he was closely followed by Mr. Kelly who had the good fortune to see the chink die several other deaths during the night. Coming on towards morning the Chinaman again recovered consciousness and took to the railway ties and in but a few minutes collided with two other trains. He was once more taken to the hospital, where he died on Wednesday after much suffering. We understand that the dead man was a dope fiend, and all the above drunks were carried out while in a state of unconsciousness. Interment takes place today.

Miss Walsh spent the week end at her home in Pincher Creek.

Thomas Crahan was down from Michel for a few days this week.

W. Patterson, eldest son of Peter Patterson, has joined the 192nd as a private.

D. A. Sinclair this week installed one of the new type of compressed-air starters on J. E. Gillis' auto.

The annual meeting of East Kootenay district of the Methodist church was held at Fernie this week.

Our spring orders for out-door plants will be complete on Monday next. Get in your order now to The Enterprise.

The Pass Chinamen have started to die natural deaths. One of the celestials quit life's struggle at Coleman Wednesday—just in time for the Arbor Day programme.

A school teacher was instructing his class on the relative value of words and phrases: The phrase "horse sense" was discussed, and she told one of the boys to write a sentence containing that phrase. The boy labored for ten minutes and produced this: "My father didn't lock the barn door and ain't seen the horse sense."

Many merchants throughout Canada complain that they cannot dispose of German-made goods, which they bought and paid for long before the war. It is, no doubt, rather hard on the merchants to have goods they cannot sell, but at the same time we hope that after the war the people will continue to boycott German-made goods.

John A. McDonald, San Life Insurance agent, of Blairmore, who laid information charging Joseph B. Harmer with transacting insurance business without having a provincial license for same, was on Wednesday night afforded the privilege of paying the costs of the court for his trouble. Mr. Harmer is a clerk of the postmaster, and the latter has been looking after the interest of Emil Trono, now of Banff, who transacts considerable fire and life insurance business under a provincial license. The case was tried before Justices Simpson and Pickney. Mr. McDonald undertook to prosecute his own case, but was literally stilled by his lawyers by J. E. Gillis, solicitor retained by Mr. Harmer. Quite an audience of amused spectators were present at the court.

Messrs. Jackson and Askey spent Sunday at Pincher Creek.

Great Britain is said to be building airships of the zeppelin type.

Household Furniture for sale. Apply to Marshall Hamilton, Frank, Alta.

Harry J. Crowe, a Newfoundland financier, will raise capital in Canada for building a sugar refinery at Kingston, Jamaica, to handle a large output. He urges the union of Jamaica and Canada.

Charles Burrows (the old war-horse), who is connected with the 192nd Battalion, had the misfortune to break a small bone near the ankle while drilling on Wednesday morning.

The Japanese Government propose to grant subsidies for the manufacture of dyes and chemicals in an effort to capture the German trade in these lines. They will pay three subsidies—one, to a company specializing in the manufacture of dyestuffs; the second to a company manufacturing glycerine and carbolic acid; and the third to a company manufacturing drugs.

C. W. Johnston, manager of the local opera house, has arranged with the Blairmore and Bellevue Red Cross branches to put on two great picture shows for the benefit of the Red Cross Fund. The programme will consist of eight big reels, including Mary Pickford in "The Dawn of Tomorrow," (5 reels), and "England's Menace." (3 reels), this latter showing thrilling scenes of recent attacks on the coasts of the British Isles. Bellevue Lyric Theatre, Blairmore opera house, Thursday, May 18th. Admission: children 25c, adults 50c.

The New York Sun has never been a strongly pro-British paper, and this fact gives considerable significance to its reply to Senator Stone, of Missouri, who has been seeking to inspire dread of the British navy among his countrymen. It reminds the senator that in 1895 Great Britain did not use its powerful fleet to threaten the United States, which had no navy to speak of, when President Cleveland wrote his famous Venezuelan message. The moderation which the industry of that day, headed by Lord Salisbury, showed, is the clearest possible evidence that Americans have nothing to fear from British navalism, of which Germany's advocates have so much to say.

Grand Patriotic Show

Lyric Theatre, Bellevue, Wednesday, May 17th
Blairmore Opera House, Thursday, May 18th

For The Benefit of The Red Cross

Mary Pickford, in one of her latest successes,

"The Dawn of Tomorrow"

in Five Parts, and

"England's Menace"

in Three Parts.

Thrilling Scores in connection with the present war. 8 reels in all
Admission: Children 25c; Adults 50c.

If You Can't Fight, You Must Pay!

"GOD SAVE THE KING"

Blairmore Lodge, No. 68, meets in their hall, 880 Victoria St., every Tuesday at 8 p.m. Visiting brethren welcome.

L. H. Putnam

Barrister, Solicitor and Notary Public.
Agent for reliable Life, Fire, Accident, and Plate Glass Insurance Companies.
Money loaned on good securities.
Branch offices at Coleman and Bellevue.

Phone 167 BLAIRMORE Alberta

For Sale or Rent

Three Quarter Sections known as the Hart Ranch, at or near Burns.
Also, House and Store, at Bellevue, belonging to The Hart Estate. For further information apply to The Imperial Canadian Trust Company, Limited, Calgary, Alberta, or to L. H. Putnam, their Solicitor, Blairmore, Alberta.

W. A. Beebe returned from Calgary on Saturday.
Walkerville, Ontario, in two days raised \$52,000 for the patriotic fund.

Sunday next will be observed throughout the Dominion as "Mothers' Day."

Paramount Travel Series—Blairmore every Friday night, Bellevue every Saturday night.

We regret that we have not a half column of space to spare this week to copy the contents of the Coleman Bulletin.

Sgt. Sampson is the wearer of the biggest smile in Blairmore, another soldier having arrived at his home in Calgary on Wednesday morning of this week.

Very little business was transacted at last night's meeting of the city fathers. The medical health officer reported that ten homes were under quarantine for measles.

A grand dance will be given in the Coleman opera house on the night of Friday, May 19, under the auspices of "B" Company of the 192nd Battalion. Proceeds are for the purpose of purchasing band instruments.

Messrs. J. Houston and J. Sloan returned Wednesday morning, via New York, from a several months' trip to Bonnie Scotland. Immediately on arrival they both attended their names to the roll of the 192nd Battalion.

Postage stamps by the short-lived Irish Republic have been found, ready for issue. They are printed in the republican colors green, white and orange, with inset pictures of the three Napoleonic martyrs, Larkin, Brien and Allen, on a shamrock leaf. Beneath is a harp and the words "God Save Ireland."

More than forty years ago James A. Knapp and Miss Mary Buttery, of Stamford, Conn., were sweethearts. They drifted apart. Miss Buttery married five times and death robbed her of each husband. Mr. Knapp married and his wife died about a year ago. A few days ago the sweethearts of forty years ago were married by a justice of the peace and went to Mr. Knapp's farm in High Ridge.

The Alberta government has completed the purchase of the Alberta Ladies' college at Red Deer, which will hereafter be used by the provincial department of education as a school for feeble-minded children of the four western provinces. This is in accordance with the arrangement arrived at at a recent conference of representatives of the four western provinces, whereby it was agreed that Manitoba would operate an institution for the deaf and dumb, Saskatchewan would educate the blind, Alberta would establish a school for the feeble-minded and British Columbia would care for the incurably insane.

The declaration of war against Portugal by Germany has produced a great sensation in Greece. A Greek officer said recently: "Twelve nations are already at war. To this tragic banquet Germany has just invited the thirteenth guest. This will bring her bad luck."

J. R. ("Paddy") Palmer, of Lethbridge, is the latest member of the legal fraternity to put off the gown for the khaki. Mr. Palmer has been recommended for a commission in Col. Bryan's 191st Macleod Battalion. Practically all of Lieut. Palmer's male relatives are in either the army or navy. His brother, Capt. Palmer, of the Dublin Fusiliers, was mentioned in General Ian Hamilton's dispatches from the Dardanelles and recommended for the military cross. Lieut. Palmer is making suitable arrangements to look after the interests of his clients, which will be announced later.
